

Dear southeast friends,

Due to the situation surrounding the Coronavirus (COVID-19), the Four A's Juneau Syringe Access Program is temporarily closing our office location. Your safety and the safety of our staff, clients and the larger community are of the upmost importance right now. Our mission to reduce the impact and incidence of HIV/AIDS and other serious medical and social conditions has never been more important.

Starting Friday, we will be moving to mail delivery syringe access services. You can submit a request for sterile syringes, supplies, Narcan and safe sex kits to aaaase@alaskan aids.org. As we work to make this solution as seamless as possible, we are encouraging individuals to visit the below pharmacies that have syringes available for purchase without subscription.
